#### KEY INFO

It is especially preferred in water based applications due to its ease of application, create a high body without lifting the grain of the wood and high scratch resistance thanks to its self-sealer feature.

#### GLOSS OPTIONS

- 10 Matt
- 20 Special Matt - Only this option is EN71.3 certified.
- 40 Silk Matt

#### APPLICATION METHOD

#### SURFACE PREPARATION

The glass surfaces must be dry which is removed from oils and residues.

The humidity of the wood to be applied should be within the range of 10-14%.

In order to prevent lifting the grain of the wood, it should be sanded with 180-220 grit sandpaper before application.
