It is suitable for use on wooden stairs.

**GLOSS OPTIONS**

- 20 Matt
- 50 Silk Matt
- 70 Glossy

**APPLICATION METHOD**

**SURFACE PREPARATION**

The surface of the wood should not contain oil and resin residues, it must be free from all contamination.

Since water-based products have a tendency to lifting the grain of the wood, sanding is very important.

It is important that the wood to be applied should be well dried and the moisture content should be between 10-14%.

**PACKAGING**

2.5 LT / 15 LT
