GLOSS OPTIONS

- 00 Glossy

APPLICATION METHOD

SURFACE PREPARATION

Before application, the surface must be removed from dust and other foreign materials (oil, silicone, varnish residues, etc.). For high yellowing resistance, acrylic systems can be used as basecoat.

PACKAGING

3 KG / 12 KG

KEY INFO

Shrinkage can not be observed, keeps glossy as if in the many years.

It can be polished in a short time due to its fast drying properties even if temperature is between 5 - 15 °C.

It is also recommended for dijital printed surfaces due to fast drying feature.
