PRODUCT	CODE	BY WEIGHT (%)	BY VOLUME (%)
Cellulosic Wood Colorant	VN101.00	100	100
Cellulosic Thinner	TN200	85	100

KEY INFO

It is used as an intermediate coat varnish on coated surfaces to provide color homogeneity in order to cover the image differences of wood and the errors that occur during sanding.

Before applying the topcoat, you should make sure that your applied intermediate color varnish is dry enough.

APPLICATION METHOD

SURFACE PREPARATION

Polyurethane Sealer or Cellulosic Sealer must be applied as basecoat. It is recommended to sand basecoat with 220-400 grit sandpaper respectively. Surfaces to be applied, removed from dust and other foreign materials (oil, silicone, varnish residues, etc.).

PACKAGING

0.85 KG / 3 KG / 12 KG
